

The California Arborists Association, Inc.

The California Arborists Association, Inc. (CAA) is a non-profit organization of professional arborists combining efforts to improve tree care practices in California.

Our organization was founded upon and adheres to “The Arborists Creed and Principles of Practice”© 1935, Millard F. Blair.

The purpose of our organization is to promote responsible and progressive arboricultural practices, continuing education and training, and communication between practitioners, educators, researchers, and other green industry professionals.

Our goal is to increase our ability to educate the practitioners or workers in our industry by providing opportunities with hands-on, guided practice from skilled and knowledgeable peers.

Membership Information

Active Membership: Any persons actively and directly involved in the field of arboriculture and/or other closely related fields.

Associate Membership: Any persons not directly involved in the practice of arboriculture but who otherwise have a substantial interest in the field and in supporting progressive arboriculture and the principles of the California Arborists Association, Inc. (e.g., suppliers, plant labs, etc.)

Benefits Include:

- Educational seminars and training workshops for the practitioner
- Membership discounts for CAA and CAA co-sponsored events
- Quarterly Newsletter
- Membership dinner meetings for networking opportunities

An organization of arborists and landscape professionals combining efforts to improve tree care & safety training practices in California.
